

The story happily ever after

In the beginning Snow white is 'dead' but she was actually kidnapped by Cindy to get more tiktok clout (because you can get paid for tiktok if you get enough views). Aurora kidnaps Red Riding Hood to save her from Cindy. Aurora and Bbw (big bad wolf) are going on an adventure to find them. First they go to Prince Charmings house and they find makeup wipes and suspect that if he didn't use them, he was hiding someone. They have a theory it is snow white but they have to prove it. They first go to the Mer kingdom of king triton because he is Snow Whites Godfather. They visit Ariel and she said the mer people knew ages ago that she wasn't dead. They then gather the gifts Ariel Gave them (a handglider and a clock). The hand glider leads them to the Land of Oz. After following all the clues they end up in wonderland. There they meet the cheshire cat and his brother and they give them riddles about the clock that Ariel gave them. Shortly after they figure out the riddle the queen of hearts arrives and arrests them. Cindy has been suspected of Hansel's kidnapping and when she is being interviewed, she finds out that Red has been kidnapped. She admits to kidnapping Hansel but is worried for Red. Then bbw has to take Cindy to the queen of hearts. Cindy ends up getting a twenty year prison sentence for her actions, and gives birth to her son in prison. Bbw has to take his son home. Snow comes round to babysit the kids. And bbw and red leave and the whole cast jumps out and they all do the renegade until the lights fade out.

I think you should perform my play on stage because me and my friend have written this play for our school drama club but no one could rehearse it or see it due to covid. We have already written the play so we just need to adapt it. Also our script has a bit of everything: drama, romance, comedy, adventure and action. Also it's some old, traditional fairy tales made to become one modern, fun, action script.
